**Note:** This map depicts approximations of the areas of heaviest influence of the main militant groups present. The shaded areas do not necessarily represent the bounds of influence of any one group, nor do they preclude the movement or presence of members of any one group into other areas of influence. The Haqqani network maintains some presence in much of the areas under the control of Hafiz Gul Bahadur. Al Qaeda and foreign fighters are dispersed throughout the region and are present in differing concentrations in all the areas of militant influence in North Waziristan (current as of 06/07/2011).
